SUMMARY

Informatics graduate from Universitas Gunadarma (GPA 3.80/4.00) with a foundation in programming, databases, networking, and data analysis. Built machine learning and NLP projects with Python, SQL, and Streamlit, including an IndoBERT thesis (94.34% accuracy). Experience monitoring and troubleshooting live technical operations. Seeking an entry-level role in IT.

EDUCATION

Universitas Gunadarma, Depok, West Java, Indonesia Sep 2022 - Aug 2026
Bachelor of Informatics | GPA 3.80/4.00
Relevant coursework: Software Engineering, Databases, Network Programming, Data Analysis, Machine Learning, NLP

WORK EXPERIENCE

Live Streaming Operator, EMBA Group Dec 2025 - Mar 2026

- Monitored live streaming software, supporting systems, and network conditions to keep broadcasts stable.
- Troubleshot software and network issues in real time to minimize disruption during live sessions.
- Coordinated with the production team to identify issues and keep operations running.

PROJECTS

IndoBERT Text Classification Web Application (Thesis) Aug 2026
Python, *Hugging Face Transformers*, *BeautifulSoup*, *Pandas*, *Streamlit*

- Built a data pipeline for web scraping, cleaning, and deduplication of 4,941 Mechanical Engineering journal abstracts.
- Developed an IndoBERT-based classifier for three classes (Energy, Manufacturing, Materials), reaching 94.34% accuracy.
- Deployed the model as a Streamlit web app with batch prediction, confidence bar, and out-of-distribution (OOD) detection.

Used Car Price Prediction with Random Forest (Data Science Course) Jun 2026

- Built a Random Forest Regressor on 4,340 used car records; handled missing values and duplicates and evaluated with MAE, RMSE, and R2.

Diabetes Risk Classification (Data Science Course) Oct 2025

- Compared four classifiers using IQR outlier handling, SMOTE, and PCA; Random Forest reached 90% accuracy and 0.91 ROC-AUC.

Public Sentiment Analysis on Electric Vehicles (Academic Paper) Jul 2025

- Collected 1,787 YouTube comments through the YouTube API and built a Multinomial Naive Bayes sentiment classifier (78.28% accuracy).

System Architecture Design (Academic Projects) 2024 - 2026

- Designed a distributed system architecture for a sentiment analysis pipeline and a Service-Oriented Architecture (SOA) prototype.

TECHNICAL SKILLS

Programming and Databases: Python, SQL, Oracle Database, DBMS, Go, PHP, HTML
Data and Machine Learning: Pandas, Scikit-learn, Hugging Face Transformers, Data Cleaning, Data Analysis, NLP, CRISP-DM
Networking and IT Operations: Network Troubleshooting, Wireless LAN Installation, Junior Network Administration, System Monitoring, Technical Troubleshooting
Tools: Git, Streamlit, BeautifulSoup, Matplotlib, Seaborn, Plotly, RapidMiner, Figma, Microsoft Word

CERTIFICATIONS

Associate Data Scientist (Ilmuwan Data Madya), BNSP 2026
Junior Network Administrator, BNSP Apr 2022 - Apr 2025
Microsoft Office Specialist (MOS): Word 2016, Microsoft 2022

TRAINING AND COURSES

Data Science Course: First and Second Case, Universitas Gunadarma May 2026
Oracle for Beginner and Intermediate Aug 2023 - Aug 2025
Go-Lang for Beginner and Intermediate Feb 2024 - Feb 2025
Introduction to Wireless LAN Installation, Cisco Networking Academy Oct 2024
Fundamental DBMS Aug 2023
Fundamental Web Programming Feb 2023
